

National Cyber Security
Awareness Month

By the end of 2014 there will be almost 3 billion internet users worldwide. Securing cyber space is a responsibility we all share – empower yourself and your community by joining National Cyber Security Awareness Month co-sponsored by the National Cyber Security Alliance and the US Department of Homeland Security.

CYBERSECURITY IS “OUR **SHARED** RESPONSIBILITY”

WEEK 1 OCTOBER 1-3, 2014

STOP.THINK.CONNECT.

Everyone should follow this simple way to stay safer online: STOP to be sure you have taken security precautions, THINK about the consequences of behavior online, CONNECT to the Internet with more peace of mind.

FOR MORE INFO: www.dhs.gov/stopthinkconnect

WEEK 2 OCTOBER 6-10, 2014

Secure Development of IT Products

With over 10 billion devices connected to the internet today, security is an essential element of software design, development, testing and maintenance.

WEEK 3 OCTOBER 13-17, 2014

Critical Infrastructure & the Internet of Things

The Internet underlies nearly every facet of our daily lives and with the growth of Internet of Things even more machines will be connected. Do your part to secure the networks you connect to and the devices you own.

WEEK 4 OCTOBER 20-24, 2014

Cybersecurity for Small & Medium Sized Businesses & Entrepreneurs

Small and medium-sized businesses are an important part of our nation's economy, but they often do not see themselves as a target for a cyber attack. Strong cybersecurity practices are vital to protecting and growing a business.

WEEK 5 OCTOBER 27-31, 2014

Cybercrime & Law Enforcement

Cybercrime comes in many forms (e.g., online identity theft, financial fraud, stalking and more) and can wreak havoc in victims' lives. Help protect from cybercrime and know what to do if you become a victim.
