

Partnership Mapping: Exploring the Healthcare IPC Ecosystem

Project Firstline is a national collaborative led by the U.S. Centers for Disease Control and Prevention (CDC) to provide infection control training and education to frontline healthcare workers and public health personnel. National Association of County and City Health Officials (NACCHO) is proud to partner with Project Firstline to host the NACCHO Healthcare Infection Prevention and Control Summit (Summit), as supported through CDC Grant # 6NU38OT000306-03-05. CDC is an agency within the Department of Health and Human Services (HHS). This presentation is being hosted as part of the Summit; the contents of this presentation and Summit do not necessarily represent the policies of CDC or HHS and should not be considered an endorsement by the Federal Government.

Objectives:

- Explore the importance of strong partnerships for advancing healthcare IPC
- Map the ecosystem of key parties that contribute to healthcare IPC in a range of settings
- Leveraging the Circle of Involvement exercise, determine the roles that various partners can play in advancing healthcare IPC success
- Examine best practices for partnership development and engagement in healthcare IPC

Today's Exercise:

- Large Group discussion; Partner Identification Callout
- Small Group work; Circles of Involvement
- Large Group Discussion; Partnerships and Key Takeaways

Why is Partnership Development Important?

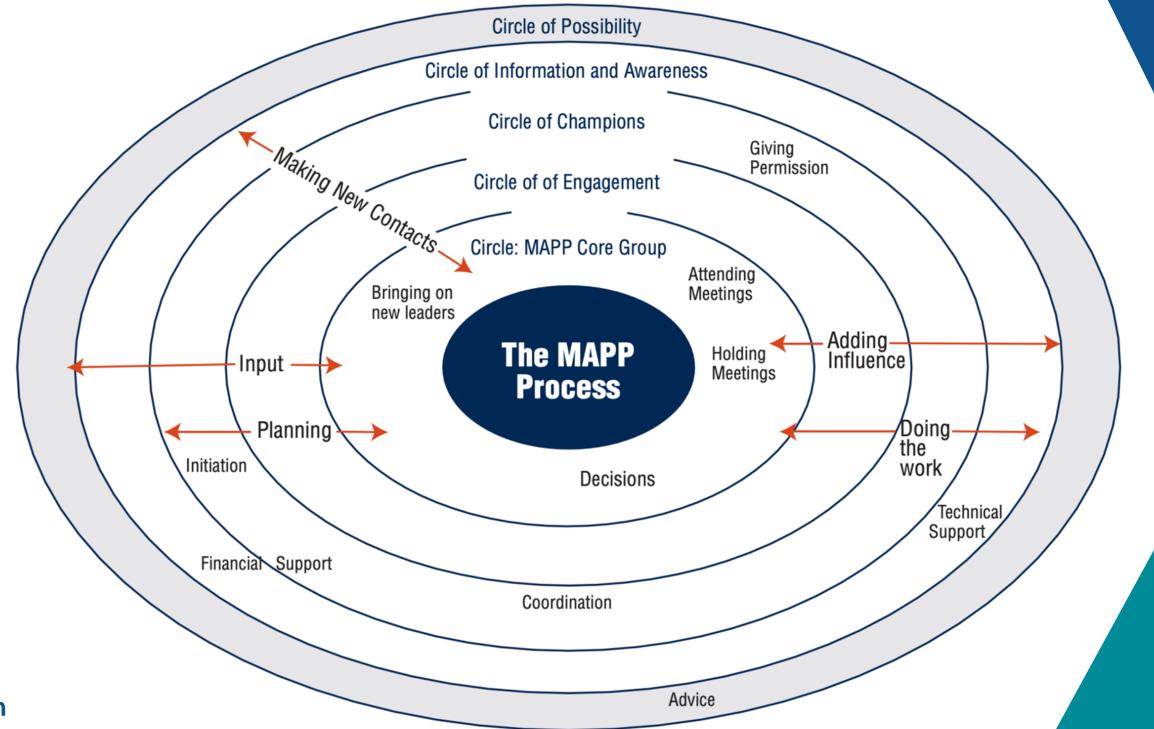

- Partnerships can help organizations gain a better understanding of the community they serve
- Improve outreach to stakeholders with enhanced visibility and messaging
- Minimize duplication of efforts
- Build on public health's expertise and evidence based tools and information to improve the health of the community
- Increase access to resources and places the responsibility for success on more shoulders.

Circles of Involvement Exercise

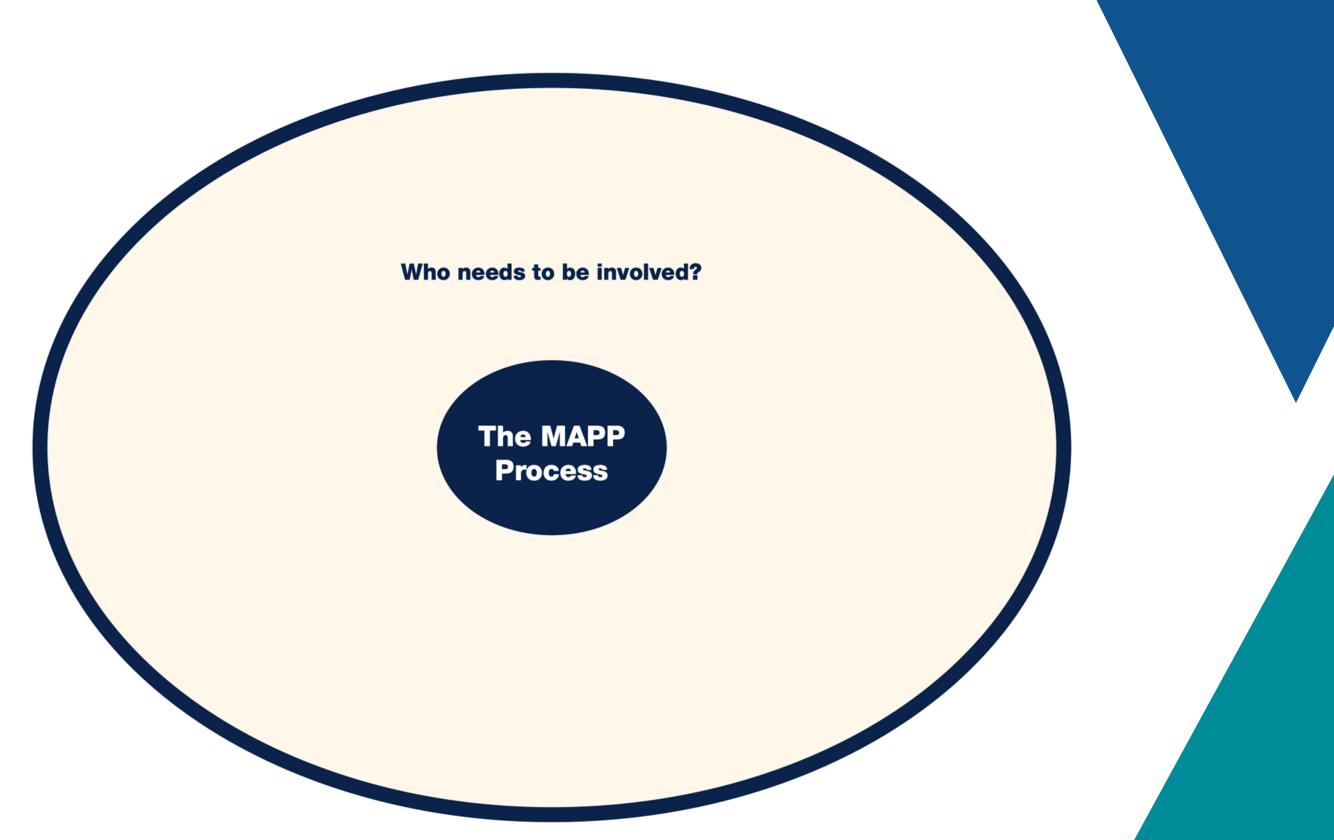

Increase the level of engagement among community members

- Who are the key partners in the healthcare IPC ecosystem?
- Who are the essential players when it comes to advancing HAI/AR?

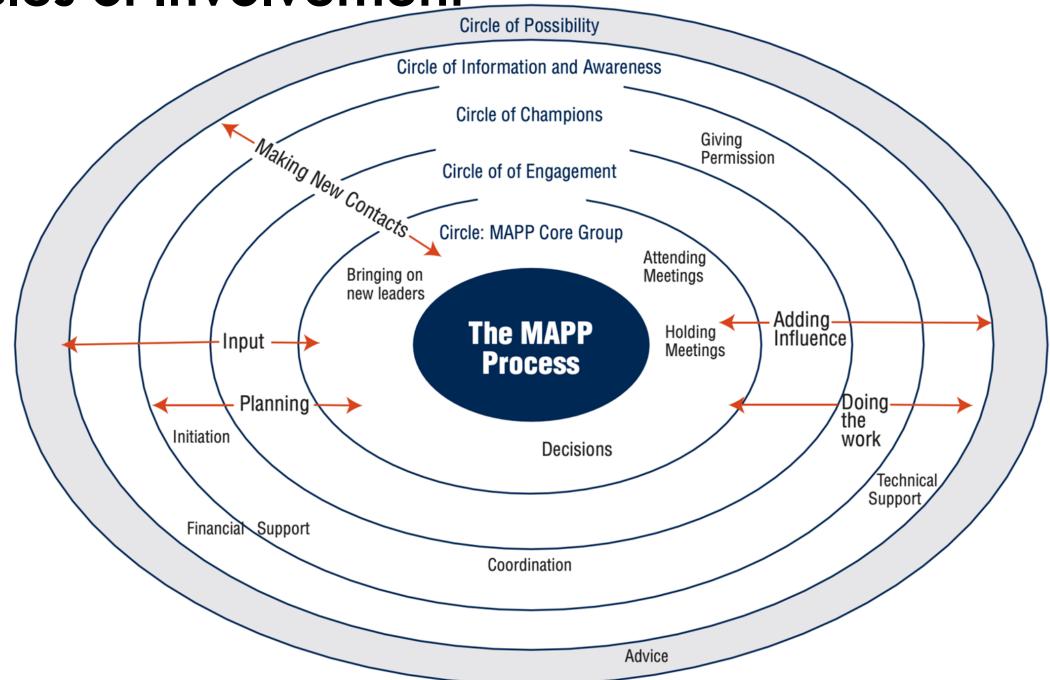

NACCHO Healthcare Infection Prevention and Control Summit:

Equip, Collaborate, and Innovate for Success

Circles of Involvement

NACCHO Healthcare Infection Prevention and Control Summit:

Equip, Collaborate, and Innovate for Success

Different type of Partners:

- Circle—MAPP Core Group; most of the day-by-day work. make the MAPP process happen.
- Circle of Engagement (MAPP Steering Committee); help with specific tasks at particular times.
- Circle of Champions; hold positions of leadership in the community
- Circle of Information and Awareness; aren't very close to the MAPP process or its implementation, but need to be kept in the loop as things unfold.
- Circle of Possibility; Long shots and wild cards

Instructions:

- You have 20 minutes to complete this exercise.
- Place partners in the level you feel they belong. If there is disagreement on where they belong, discuss as a group and vote on where they should go.
- Write the partners on the sheet at your table
- If you think of a new partner that wasn't yet mentioned, add them!
