

Environmental Health Program Impact: 2025

NACCHO's Environmental Health (EH) team develops timely content that informs and empowers local health departments (LHDs) to improve health in communities.

Through December 2025:

53 administrative invoices completed in service of LHDs worth **\$707K+**

64 travel scholarships totaling **\$65,000+** awarded to LHDs in the last 17 months.

38 workshops, webinars, sharing sessions, presentations, site visits, and technical assistance programs conducted nationwide.

29 workgroup meetings facilitated involving **49** members and subject-matter experts across four portfolios through July 2025.

1,323 registered for EH webinars in CY2025 with an average attendance rate of **65%**.

80,107 NACCHO members reached with timely environmental public health updates through **15** community forums.

49 tools, resources, publications, and media mentions with **864M+** readers exposed to NACCHO's press coverage in environmental health.

9,721 views of NACCHO's environmental health webpages with **13,795** visits of EH blogs and LHD stories from the field from CY2025 recorded.

42% above-industry-average open rate of EH e-newsletters sent to **21,000** subscribers.

77,213 followers informed of environmental public health news and resources on social media, marking a **15%** increase in followers from CY2024.
