On behalf of the National Association of County and City Health Officials (NACCHO), I am writing to nominate Dr. Anita Barry to serve on the Advisory Council for the Elimination of Tuberculosis (ACET).

She brings years of experience taking care of people with all types of TB infection as an infectious disease physician. In addition, she has overseen the local public health work in Boston related to TB for over 30 years. This includes the public health management of TB cases in the community, as well as contact investigations.
