OVERVIEW

The National Association of County and City Health Officials (NACCHO) is the voice of the approximately 2,800 local health departments (LHDs) across the country. These city, county, metropolitan, district, and Tribal departments work to protect and improve the health of all people and all communities. NACCHO provides resources to help LHD leaders develop public health policies and programs to ensure that communities have access to the vital programs and services people need to keep them protected from disease and disaster. Additionally, NACCHO advocates on behalf of LHDs with federal policymakers for adequate resources, appropriate public health legislation, and sensible policies to address the myriad of challenges facing communities.

NACCHO is pleased to offer a funding opportunity for a consultant(s) to provide expert training and technical assistance (TTA) to build the health equity capacity of local health departments and their community partners, as a part of the CDC's *National Initiative to Address COVID-19 Health Disparities Among Populations at High-Risk and Underserved, Including Racial and Ethnic Minority Populations and Rural Communities Department of Health and Human Services* ([CDC-RFA-OT21-2103](#)), hereafter referred to as the COVID Health Equity Initiative.
