JEDI Discussion Activity

Action Step: Discuss SOS, Equity Goals, and Apply PHAST Guiding Principles to your Work

Overview
Advance organizational equity and health equity within the public health and public safety partnership community. This resource includes discussion prompts to dive into the foundations of equity that can help translate efforts into actionable steps, including engaging the community to help define not only the problem but the solution.

Purpose
Use this discussion activity to assist your public health and safety partnership in remaining aligned with an equity approach as it develops activities, evaluation indicators, and performance measures.

When to Use This Resource
This resource should be used when reflecting on the internal structure and dynamics of how your team operates and interacts with your community. It can also help when reflecting on how to address health inequities in the communities your team serves.

Activity Details
