

May 2018 MAHC Webinar

“New Resources from CDC for Healthy and Safe Swimming Week”

Presenters: Michele Hlavsa, RN, MPH and CDR Joe Laco

Q: Will changes from the 2016 MAHC be easily identified within the 2018 MAHC in some way?

A: It has been done this way in the past by the Council for the Model Aquatic Health Code. Changes to the code will likely be easily to identify.

Q: Will this PowerPoint be available online at a later date?

A: Yes, it will be available to access through the MAHC Webinar Webpage.

Comment: Information on secondary disinfection would also be something our jurisdiction would be interested in the Mini-MAHC.
