PrEP Express Visit Instructions

○ Start by peeing into the cup until it’s half full. Close the lid tightly.
○ Collect your swabs—follow the instructions on the poster.
○ Keep the swab tubes upright—they have liquid in them.
○ Make sure you put the throat swab in the throat tube and the rectal swab in the rectal tube!
○ Make sure the tops are on tight.
○ Put the tubes and the urine cup in the plastic bag.
○ Put the plastic bag in the brown bag.
○ Put the brown bag in the box next to the door to the nursing station.
○ Press the doorbell
○ Have a seat in the waiting room and wait for your number/letter to be called.
