Animal Disease Prevention Logic Model

Desired Outcomes and Metrics

**Animal Disease Prevention**
- Fewer animals are found to have rabies in Onondaga County
- Fewer Onondaga County residents are exposed to rabies

**Metrics**
- # of unvaccinated cats in Onondaga County
- # of residents attending rabies vaccination clinics

**Communicate Rabies Risk**
- Residents are aware of the risk of rabies
- Residents understand how to reduce the risk of rabies

**Metrics**
- # of animal health fairs attended
- # of new media efforts targeting unvaccinated cats

**Reduce Rabies Exposures**
- All residents have access to rabies vaccination for their domesticated animals

**Metrics**
- # of untreated animals reached with a new mobile vaccination clinic
- # of animals treated at traditional rabies vaccination clinics
- % of cat bite exposures involving an unvaccinated cat
