Strategic Issue: How can the public health community ensure access to population-based and personal health care?

Community Themes & Strengths Assessment

Forces of Change Assessment
- Lack of men’s programs
- Inconvenient clinic hours
- CHIP confusing
- Employer based insurance model inadequate
- For-profit growth reduces uncompensated care capacity

Confusion on CHIP enrollment
- Language barriers to care
- 70% report linking people to needed services

Local Public Health System Assessment
- Many agencies conduct outreach
- 15% of Chicagoans uninsured
- 4% have no source of care

Community Health Status Assessment
- 7% use ER for regular care
- 15% uninsured

Relationship to Vision: Accessible Services
