Flow chart of how we currently decide when food inspections are conducted.

- Obtain Complete list of foods establishments
  - Developed and Prioritize List
    - Determine what and when Foods should be inspected.
      - From list created look at location of foods to group by location.
        - Gather Supplies
          - Inform Mary Ann or Barbara on what food establishment will be inspected upon leaving for inspection
            - Conduct Inspection
              - Rating Given to Establishment
                - Conditional or Unsatisfactory
                  - Inspection Completed
                    - Paperwork is Filed
                      - Satisfactory Rating Given
                        - Complaints New Establishments Re-inspections Seasonal
                    - Satisfactory Rating Given
                      - Inspection Completed
                        - Paperwork is Filed
                          - Conditional or Unsatisfactory
                            - Rating Given to Establishment
                              - Conditional or Unsatisfactory
                                - Inspection Completed
                                  - Paperwork is Filed
