Purpose

To support public health and public safety teams to facilitate key processes in the PHAST framework. Functions as a complement to the in-depth guidance of the PHAST Toolkit or as a collection of freestanding resources independent from the Toolkit.

Who Should Use: Public health and public safety partnership coordinators or facilitators of other cross-sector teams or model(s)

Amplifier Suite Content Outline
How to Get Started

You can start using the Amplifier Suite in one of three ways. Choose the path that works best for your team and where you are in your implementation journey.

1. **Utilize the Readiness Assessments to determine areas of need and plan action items**

   There are two versions of the Readiness Assessment:
   - **Readiness Assessment** (134 questions)
     Use this larger assessment to get a specific and more in depth understanding of your team's progress and areas of need.
   - **Mini Readiness Assessment** (20 questions)
     Use this smaller assessment to get a quicker big picture view of progress and gaps.

2. **Explore the Action Resource Guide to see resources organized by type of action**

   Use if you already know what actions your team must take on next

3. **Review the Menu of Resources to see an overview of all the resources provided, then select a resource to start with**

   Use if you are looking for a specific resource or support
