

Every Step of the Way through the 1,000 Days: Demystifying Infant Feeding Data to Strengthen Continuity of Care (CoC)

WD4576-062823
(WEB DEMAND)

PROGRAM DESCRIPTION:

Eighth and final webinar of the 8-part “Every Step of the Way through the 1,000 Days” series, on Demystifying Infant Feeding Data to Strengthen Continuity of Care. This webinar will focus on Recommendation 4 of the Continuity of Care in Breastfeeding Support: A Blueprint for Communities: “Develop a shared community breastfeeding database system to track infant feeding consistently for community health collective impacts efforts.”

This session will discuss data in a non-intimidating and conversational way, highlighting the need for easily accessible and stratified local infant feeding data to understand the community CoC story, and the importance of joining efforts with community stakeholders to streamline data collection, reporting, and sharing. You will hear from current REACH recipients and CoC grantees across the country that are pioneering and advancing the understanding of their community chest/breastfeeding data.

Participants will then hear from speakers who are leveraging community resources and systems to better gather, interpret, and communicate data in meaningful and effective ways. Speaker organizations include the County of San Diego Health and Human Services Agency, the Partnership for a Healthy Lincoln, and Kansas Breastfeeding Coalition.

OBJECTIVES:

At the conclusion of the session, the participant will be able to:

1. Discuss breastfeeding equity as a public health issue
2. Describe continuity of care gaps in community lactation support
3. Describe the role of multisectoral partnership in establishing continuity of care in breastfeeding support
4. Identify key recommendations and strategies to establish chest/breastfeeding CoC in the community
