

Behavioral Health 360°

A national program to improve mental health in your county or region with these benefits:

A Digital Mental Health Platform

Localized to your community.

Available to Every Resident

Providing prevention, early intervention and self-care.

Benchmark Reporting

Gain real-time insights on your community's mental health needs and opportunities with analytics.

Best Practice Sharing

Connect with other leaders for shared learning to support your success.

Grant Opportunities

As a member, access various grants to finance your mental health initiatives.

Strengthen Your Community's Mental Health

The country and your community are in a national mental health crisis. This program gives local leaders the tools to improve mental health locally through a public health lens.

Let's Empower Your Community to Flourish.

The digital backbone of Behavioral Health 360 NACCHO | CredibleMind Wellbeing Platform

Self-Care Solution: Beyond One-Size-Fits-All

Our co-branded Mental Wellbeing Platform provides access to a comprehensive collection of the best apps, videos, podcasts, articles, books, and other resources, encompassing over 200+ topics and 20,000+ expert-curated items.

SmartScreen Solution: More Efficient Intake

Our SmartScreen digital solution streamlines the intake process for clinical professionals by identifying an individual's unique challenges and needs before ever stepping into a doctor's office.

About Our Platinum Partner: CredibleMind

CredibleMind is a leader in digital mental health solutions, providing evidence-based self-care resources for individuals and organizations. Its mission is to foster mental wellbeing, resilience, and performance by empowering users with personalized access to reliable mental wellbeing information, tools, and resources.
