

Metopio

NACCHO

National Association of County & City Health Officials

Access Powerful Public Health Data Analytics

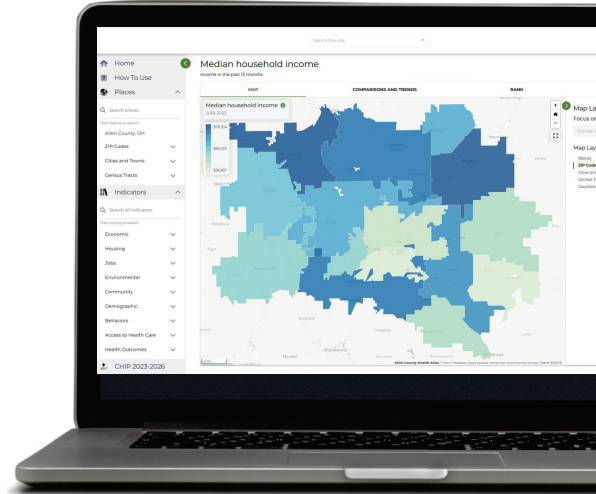

Trusted by public health organizations nationwide

Streamline Your CHA and Public Health Planning

Metopio is proud to partner with NACCHO to offer exclusive benefits to local health departments.

Through this collaboration, NACCHO members gain access to Metopio's easy-to-use, AI-powered analytics platform — designed to eliminate manual work, reduce delays, and simplify the entire process of Community Health Assessments, Community Health Improvement Plans, and other public health initiatives.

Unlock the Power of Data with Metopio

- Instant community trend analysis
- Automated CHA & CHIP workflows
- Effective community data sharing solution
- Interactive maps and visuals
- User-friendly report generation

"The flexibility of the platform allowed us to use our staff's time more efficiently, which made a significant difference in how we approached public health planning and provided our partners with the customized analysis they needed."

- Kane County Health Department

Empowering public health teams to spend less time in manual processes – and more time driving community change.

Still stuck in spreadsheets? Activate your NACCHO member access today.

Metopio helps public health professionals nationwide save time, simplify processes, and uncover insights by making data easier to access, analyze, and use.
